## Model 47 <br> Fatigue Rated Ultra Precision Universal Load Cell

## DESCRIPTION

Model 47 Ultra Precision Fatigue Rated Load Cell offers a low profile design for both tension and compression applications.
The all welded stainless steel construction and stabilizing diaphragms provide the same ruggedness which has made our Model 41 and 43 pancake type load cells so successful. The

Model 47 is available in ranges 250 lb through $100,000 \mathrm{lb}$. and mounting dimensions are universally interchangeable within the industry. Options include hi-level outputs of 4 mA to 20 mA or 0 Vdc to 5 Vdc as well as weatherproof or submersible cable configurations.

## FEATURES

- Accuracy up to 0.02 \% (see specification table for specific range)
- 250 lb to 100000 lb
- Long fatigue life
- Pull plate attached
- Intrinsically safe available (2N option only) ${ }^{12}$
- CE approved ${ }^{13}$

## Model 47

## PERFORMANCE SPECIFICATIONS

| Characteristic | Measure |  |  |
| :---: | :---: | :---: | :---: |
| Load ranges ${ }^{14}$ | 250 lb to 100000 lb |  |  |
|  | Accuracy (static error band) ${ }^{1,2}$ | Linearity | Hysteresis |
| 250 lb to 1000 lb | $\begin{aligned} & \pm 0.02 \% \text { full } \\ & \text { scale } \\ & \hline \end{aligned}$ | $\begin{aligned} & \pm 0.02 \% \text { full } \\ & \text { scale } \end{aligned}$ | $\begin{aligned} & \pm 0.02 \% \text { full } \\ & \text { scale } \\ & \hline \end{aligned}$ |
| 2500 lb to 5000 lb | $\pm 0.03 \% \text { full }$ scale | $\pm 0.03 \% \text { full }$ scale | $\pm 0.04$ \% full scale |
| 12500 lb to 50000 lb | $\pm 0.04$ \% full scale | $\pm 0.04$ \% full scale | $\pm 0.05 \%$ full scale |
| 100000 lb | $\begin{aligned} & \pm 0.05 \% \text { full } \\ & \text { scale } \end{aligned}$ | $\begin{aligned} & \pm 0.05 \% \text { full } \\ & \text { scale } \end{aligned}$ | $\begin{aligned} & \pm 0.05 \% \text { full } \\ & \text { scale } \end{aligned}$ |
| Non-repeatability | $\pm 0.01$ \% full scale |  |  |
| Output | $2.0 \mathrm{mV} / \mathrm{V}$ |  |  |
| Tolerance on output | $\pm 1 \%$ full scale |  |  |
| Creep in 20 min. (max.) | 0.01 \% |  |  |

ENVIRONMENTAL SPECIFICATIONS

| Characteristic | Measure |
| :--- | :--- |
| Temperature, operating | $-54^{\circ} \mathrm{C}$ to $93^{\circ} \mathrm{C}\left[-65^{\circ} \mathrm{F}\right.$ to $\left.200{ }^{\circ} \mathrm{F}\right]$ |
| Temperature, compensated | $--^{\circ} \mathrm{C}$ to $54^{\circ} \mathrm{C}\left[30{ }^{\circ} \mathrm{F}\right.$ to $\left.130^{\circ} \mathrm{F}\right]$ |
| Temperature effect, zero | $0.0008 \%$ full scale $/{ }^{\circ} \mathrm{F}$ |
| Temperature effect, span | $0.0008 \%$ reading $/{ }^{\circ} \mathrm{F}$ |

## ELECTRICAL SPECIFICATIONS

| Characteristic | Measure |
| :--- | :--- |
| Strain gage type | Foil |
| Excitation (calibration) | 10 Vdc |
| Excitation (acceptable) | 20 Vdc |
| Insulation resistance | 5000 mOhm @ 50 V |
| Bridge resistance <br> (tolerance) | 350 ohm (nominal) |
| Zero balance (tolerance) | $\pm 1 \%$ full scale |
| Shunt calibration data | Included |
| Electrical termination (std) | PC02A-10-6P |
| Mating connector <br> (not included) | PC06A-10-6S |

## MECHANICAL SPECIFICATIONS

| Characteristic | Measure |
| :--- | :--- |
| Maximum allowable load | $200 \% \mathrm{FS}^{3,9}$ |
| Weight | See table |
| Case material | Stainless steel |
| Life cycles (approx.) | $>10^{8}$ cycles fully reversed |
| Deflection | See table |
| Natural frequency | See table |

## NOTES

1. Static error band is the recommended performance specification. The static error band is calculated as the best fit straight line through zero, including the effects of non-linearity, hysteresis and non-repeatability.
2. Values noted are typical values but fall within the static error.
3. Allowable maximum loads - maximum load to be applied without damage. ${ }^{4}$
4. Without damage - loading to this level will not cause excessive zero shift or performance degradation. The user must consider fatigue life for long term use and structural integrity. All structurally critical applications (overhead loading, etc.) should always be designed with safety redundant load paths.
5. Interconnecting shunt cal. 1 terminal with shunt cal. 2 terminal provides $50 \%$ (unamplified units), $75 \%$ ( 4 mA to 20 mA three-wire units) or $80 \%$ (voltage amplified units) of full scale output for quick calibration. Shunt calibration comes standard with internal amplifier option $2 \mathrm{c}, 2 \mathrm{t}$ and 2 j .
6. $\mathrm{O}=$ Orange; $\mathrm{Y}=$ Yellow; $\mathrm{B}=\mathrm{Blue} ; \mathrm{Bl}=\mathrm{Black} ; \mathrm{R}=\mathrm{Red} ; \mathrm{Br}=\mathrm{Brown}$; W=White; $G=$ Green. Color specifying cable and number or letter specifying connector.
7. No mating connector necessary for cable option.
8. 250 lb range has 700 ohm bridge resistance.
9. Off axis loading maximum allowable $50 \%$ full scale.
10. Internal amplifier for ranges less than 12500 lb may increase in height.
11. Consult factory for TEDS availability with amplified models.
12. Range dependent; consult factory. Termination dependent; consult factory.
13. Internal amp and termination dependent; consult factory.
14. This unit calibrated to Imperial (non-Metric) units.
15. 5000 ohm bridge required.
16. Cannot be used with amplified option.
17. Cannot be used with options $1 \mathrm{c}, 1 \mathrm{e}, 1 \mathrm{f}, 1 \mathrm{~g}, 1 \mathrm{~h}$, or 1 i .

Warranty. Honeywell warrants goods of its manufacture as being free of defective materials and faulty workmanship. Honeywell's standard product warranty applies unless agreed to otherwise by Honeywell in writing; please refer to your order acknowledgement or consult your local sales office for specific warranty details. If warranted goods are returned to Honeywell during the period of coverage, Honeywell will repair or replace, at its option, without charge those items it finds defective. The foregoing is buyer's sole remedy and is in lieu of all warranties, expressed or implied, including those of merchantability and fitness for a particular purpose. In no event shall Honeywell be liable for consequential, special, or indirect damages.

While we provide application assistance personally, through our literature and the Honeywell web site, it is up to the customer to determine the suitability of the product in the application.

Specifications may change without notice. The information we supply is believed to be accurate and reliable as of this printing. However, we assume no responsibility for its use.
