

DC/DC LVDT (Single power supply)  
 for use with +5V regulated or +6V to +18V unregulated supply

WIRE	DESIGNATION	NOTES
RED	+6V to +18V Unregulated	* When using a +6V to +18V supply, interconnect
YELLOW	+5V Regulated Input	YELLOW and BROWN.
BROWN	+5V Regulated Output	* When using a +5V regulated supply, insure that
BLUE	0V, Supply Common	RED and BROWN are not connected to anything.
GREEN	Output (+/- 2V)	* The DC output is electrically isolated from the
BLACK	Output Return	input voltage.

AC/AC LVDT

PIN B OR PIN 2 N/C
